CAREER OBJECTIVE

Graduate of Bachelors Degree in Electrical & Electronics Engineering (B.E.-EEE) with a Certified Software Developer looking for Entry-Level positions in order to leverage my strong programming skills with languages such as Python with Django, PHP with Laravel, Java and JavaScript. I am highly passionate about creating intelligent and scalable software applications using node-based workflows for AI agents & n8n automation.

GITHUB LIVE PROJECTS

Interactive Developer Web Portfolio - A custom-built, fully responsive web application featuring optimized UI elements and seamless cross-device navigation. Designed to dynamically showcase my programming expertise, hands-on projects, and Python certifications.

NM Mobiles: Enterprise Admin Matrix & Audit Hub - Dark Ops System with PHP & MySQL synchronization for Sales and Service Operations. Built with JSON-based Forensic Logging and Role-Based Access Control to ensure high-level data consistency, recovery, and ease of navigation between different devices.

MathiNexus: Enterprise Admin & Operational Hub - MathiNexus is a fully integrated, full-stack platform built on the Django framework using Python. This platform uses TiDB database, Cloudinary media storage, and Brevo API authentication services for scalability and security of its processes. MathiNexus provides continuous zero-downtime deployments through GitHub and Render with round-the-clock service reliability with UptimeRobot.

SKILLS

Technical Skills – Node Based AI Agent Workflows, n8n Workflow, LLM Deployment (Ollama), Prompting, Python, PHP, Java, JavaScript, MySQL, Django, Laravel, Git, GitHub, Logical Debugging, Linux Command Line.

[Tools: VS Code, Eclipse, n8n, phpMyAdmin, MySQL Workbench, DBeaver, Kitty Terminal, Arch Linux, Windows]

Soft Skills - Adaptability, Leadership, Multitasking, Document Reporting, Time Management, Analytical Thinking, Creativity.

COURSES

Junior Software Developer (SSC/N0506) - 600 Hrs | 3rd Mar 2026 – 28th May 2026 | On-Site

DDU-GKY, Ministry of Rural Development, Government of India.

Python Programming - 40 Hrs | 8th Feb 2026 | Remote

Microsoft through Skill India Digital hub.

Python Programming – 90 Hrs | 31st Jan 2026 | Remote

Course offered by Reliance foundation skilling Academy through Skill India Digital hub.

Full Stack Development Course & Internship by Elewayte | Virtual Internship | Remote | Jun 2023 – Jul 2023

HTML Structure, CSS Styling & JavaScript | Responsive Design

ACADEMIC PROJECT

Design and Development of Efficient Task Scheduling Algorithm using FreeRTOS for Autonomous Vehicle -

Developed a FreeRTOS-based algorithm to optimize real-time task scheduling, significantly reducing response time and enhancing the safety of autonomous vehicles and also published this 6-month research project in the SCOPUS-indexed ICRDICT 2025 conference (ISBN: 978-989-758-777-1).

EDUCATION

Bachelor's Degree | Electrical and Electronics Engineering | K.S.R. College of Engineering - Tiruchengode

Aug 2022 - May 2025 (Lateral | Full Time Course) | CGPA: 7.18 (First Class)

Diploma | Automobile Engineering | Nandha Polytechnic College - Erode

Jul 2017 - Apr 2020 (Regular | Full Time Course) | Percentage: 80% (First Class With Distinction)

SSLC (10th Standard) | Chinnasamy Ammal Municipal Boys Higher Secondary School - Tiruppur

Jun 2016 - Mar 2017 | Percentage: 72.2

[Personal Information]

Date of Birth (DOB): 08-Mar-2001 | **Passport Availability:** Yes, Indian ECNR E-Passport | **Pin Code:** 638752
